Work Experience

Frontend Developer
Berdac | July 2020 - Present

- Medical startup. Only Frontend developer on the team. I started with Angular 7 but I updated it to 10.
- Fix code throughout the app and delete code repetition. Work with the design team to bring their designs to life.

Frontend Developer
Balio | April 2020 - July 2020

- Fintech startup. I was the only Frontend developer working on the app. I worked with Angular 9.
- Creation of new services to improve re-utilization of code throughout the whole app. Rewrite of the API services to work with the new API using Observables.

Academic History

Apps Factory - Mobile App Developer Course
Grupo Aspasia. Feb 2019 - August 2019.

620 hours. Course in which I learned Frontend (HTML5, CSS3, JavaScript, ES6...), Backend with Node.js and Express and libraries like React.

Dev Courses

The Modern React Bootcamp (Hooks, Context, NextJS, Router)
Udemy. 39 hours.

Complete React course in which I reinforced my React knowledge and learned Context API, React Router, NextJS and React optimization among other things and mastered React Hooks.

The Complete React Native + Hooks Course [2019 Edition]
Udemy. 39 hours.

Learned React Native and the way of building hybrid apps transferring my prior knowledge of the React library.
